NEW FOR 2017

1. UNDISPUTED
Unicorn design and engineering has powered more dart players to more World Titles than any other brand.

2. NEW PRODUCT INNOVATION
Unicorn lead and have led for over 75 years.

3. INVESTING
The PDC Unicorn Challenge Tour, The PDC Unicorn Development Tour, The PDC Unicorn Youth World Championships creating aspirational opportunities for tomorrow’s stars.

4. CHOICE OF THE PDC
For 25 years until at least 2022 every dart thrown live on SKY TV and terrestrial channels uses Unicorn Eclipse HD2 dartboards.

5. ON AIR
The Unicorn brand is exposed globally on TV for more than 6,000 hours each year, more than any other brand.

6. RECOGNITION
Unicorn spend more money on Brand Promotion than all other companies put together.

7. NAME
Since 1937, Unicorn – The Big Name In Darts.

These 7 reasons generate more demand for more profitable sales for the Unicorn brand from your customers than for any other dart brand.

IF YOU DON’T STOCK UNICORN, YOU ARE NOT IN THE DARTS BUSINESS.

Team Unicorn product development is a continuous process. The barrels illustrated are those in use by our players at the time of preparation of this Book of Darts.
#TheWinningDouble
IT’S IN OUR DNA.

January 3rd 2016, Alexandra Palace, London
Gary Anderson hits Double 12 and with that dart Gary is crowned back to back Champion of The World.
At Unicorn we work with players to help design, engineer and manufacture the equipment they need to win. No drama, no bling, just trophies.
Our only focus is on #TheWinningDouble

The Sigma X Cross Tip Championship is a stability-optimized dart designed to maintain its nominal weight in both steel tip and soft tip configurations. Fitted with either the steel tip Zero D titanium noses or Teknik soft tips, players can use the same barrels for the ultimate in Cross code stability.

The original Sigma, the Pro 970 assembled with a Sigma Pro Ti shaft and Sigma Pro flight is tuned for supreme accuracy coupled with advanced stability. Offering more forgiveness in its soul than the XL Super Pro with a more stable flight cycle.
THE UNIBUFFIN SAYS:
"Tuning darts for optimal aerodynamics can help scoring, but tuning for optimal ergonomics may be the crucial difference. Configured to play either Steel-tip or Soft-tip and utilising CTT (Core Transfer Technology) ULTRACORE enables you to successfully change the definition of your darts. With 16 different combinations of weight and balance to suit your particular grip position and throwing technique the search for your perfect dart could end here!"

Unicorn brings you the latest innovation in flight technology with the all new X Flight. Introducing the world's first 3-piece polymer flight system. Using a durable polymer body and wing combined with a robust polycarbonate shaft guarantees a perfect 90° flight angle that rotates to allow following darts an unrestricted passage.

The X Flight Kit comes complete with a clear polycarbonate shaft, black body and white wing. Both body and wing are available in additional colours allowing you to personalise your X Flight system to your own colour combination.

**THE UNILAB FLIGHT SELECTOR TABLE**

**THE UNIBOFFIN EXPLAINS...**

The right flights for you must match your particular darts, producing enough aerodynamic lift to stabilise them in-flight but not so much as to throw them off-course. UniLab and Unicorn Sigma darts use sophisticated mathematics to achieve this matching, but you can try yourself using the following table, some experimentation, and maybe a UniLab Flight Selector Kit!

The table below lists the surface area for current Unicorn flight shapes, a Lift Factor relative to the highest lift, Big Wing flights, and a related Stability Factor. Flight weight also affects stability and, although the Stability Factor shown is for a standardised material, the table’s last row shows the weight of a representative Plus flight in different materials. Heavier materials provide slightly less stability but improved durability, Maestro additionally offers more rigidity and therefore consistency of flight, and Q aims to provide this in a lighter flight.

There are no hard-and-fast rules on flights matching, but as a hint to using the table, if your darts are landing in the board at varying angles, try a higher stability flight, if they’re landing true, a smaller, lower lift flight may improve accuracy, land flatter, and reduce bed-blocking.

TO OUR CUSTOMERS....

Our aim is to make trading with Unicorn easy. We try very hard to have an appreciation of our customers’ problems and to have a minimum of rules. We feel the stating of our policies will make it easier and more profitable for our customers to deal with Unicorn.

1. WARNING
DARTS IS AN ADULT SPORT. IT IS DANGEROUS FOR CHILDREN TO PLAY WITHOUT SUPERVISION. WE RECOMMEND THAT A DEALER SHOULD EXERCISE DISCRETION WHERE ANY SALE MIGHT RESULT IN CHILDREN PLAYING WITHOUT ADULT SUPERVISION.

2. DISTRIBUTION
We are geared to supply goods to accredited retailers only and thus cannot give satisfaction to clubs or individuals, whom we refer to local dealers, anxious and ready to provide a prompt and complete service.

3. SPECIFICATIONS
We have taken every care to ensure that the information detailed in this catalogue is truthful and accurate. All weights and sizes are approximate and for guidance and comparison only. Should circumstances arise subsequent to publication render as unavoidable some changes in production, Unicorn Products Limited reserves absolute discretion to make these or any other changes they deem necessary without notice or obligation.

4. PRODUCT IMPROVEMENT
Continuous research and development will bring about changes in design, material and arrangement of our products during the life of this catalogue. We shall pass to our customers such benefits or improvements as they occur by delivering the latest version of any product. Such improvements or modifications as may be introduced do not place us under any obligation to make similar changes in articles sold before the date of introduction.

5. STANDARD PACKS
Many of the items in this catalogue are prepacked in convenient size standard packs. The standard pack has been selected for ease of stocking and ordering, economy in production and to ensure safe transit of the contents. For these reasons we cannot split standard packs and where orders call for other than standard packs we shall adjust the order to the nearest pack quantity.

6. GUARANTEE
It is our aim to ensure the complete satisfaction of our customers and in case of a genuine complaint as to the quality of our goods, we shall be anxious to rectify any fault of our own free will and at our discretion only.

7. IMITATIONS
The design, construction and trade names of most of our products are protected by patents, design registrations, trade marks, copyrights and/or pending applications and rigorous action will be taken against all infringers to protect both dealer and users from imitation.

8. ACCEPTANCE OF ORDER
All orders are accepted by us on the understanding that our Conditions of Sale as stated in our current price list form the basis of the Contract of Sale entered into by the placing and acceptance of such orders.

“There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the people who consider price only are this man’s lawful prey.”

John Ruskin
